

**SPRINGVALE TOWNSHIP
NEIGHBORHOOD MEETING / MAYWOOD ESTATES AND 329TH AVENUE
SECTION 33
JANUARY 11, 2018**

The township board met at the town hall for a neighborhood meeting to discuss a possible road improvement by bituminous (blacktop) in the Maywood Estates development and a portion of 329th Avenue NW in section 33. Town Board members present were: Bill Friedland, Steve Lindgren, Tony Brown, and Michelle Kleven. Joseph Pelawa from Bolten and Menk Engineering Services was also present. Residents present are on file with a sign in sheet. Lindgren called the meeting to order at 6:30 p.m. The pledge of allegiance was recited.

The town board and Pelawa explained the chapter 429 assessment process and some possible financial and construction plans to improve roadways within section 33 with bituminous (blacktop).

The town board opened the floor for questions and concerns pertaining to the possible road improvement. There was some discussion regarding petitions, new culverts, swing arm mailboxes, assessments, speed, additional stop sign requests, speed limit signage, water drainage, timeline of when the improvement could take place, and other concerns.

Lindgren asked for a hand vote of those residents opposed to this road improvement project. Only 2 residents out of 18 in attendance were opposed due to cost and speed.

The town board will take information from this meeting for review and discussion at its regular town board meetings. This road improvement has not been approved to be completed as of this meeting.

Lindgren adjourned the meeting at 7:55 p.m.

Respectfully submitted,

Michelle Kleven
Town Clerk

Steve Lindgren
Chairman
