

**SPRINGVALE TOWNSHIP POLICY
DITCH MOWING AND BRUSHING
POLICY #103-03**

Springvale Township will mow all roadside ditches eight (8) feet from the edge of the road beginning approximately the first week of July. A second mowing will be done in the fall of each calendar year depending on the weather upon approval of the Township Board of Supervisors.

All vegetation with a base diameter of six (6) inches or less will be mowed or trimmed in the right of way of the township road. If anything larger than six (6) inches in diameter is causing a safety hazard or interferes with travel on township roads, the Springvale Township Board of Supervisors will try and contact the adjacent property owner for prior notice before removal. All other brushing, trimming, and mowing jobs will be considered on a case by case basis which the Township Board of Supervisors will discuss during their spring and fall road inspections, and will decide what action will be taken.

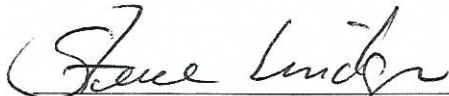

All other ditch mowing, brushing, and trimming concerns will be referred to the Springvale Township Right-of-Way Ordinance 2004-1.
